Would you like to participate in a City of Boroondara research project?

The City of Boroondara, with the support of Monash University, is doing research to find out about the experiences and issues that place single, older women (55 years and over) at risk of homelessness or that lead to homelessness.

Who can participate?

To inform the research we are seeking the perspectives of a range of groups including single, older women who:

- live, or have lived, in Boroondara who are homeless or have been homeless in the past 12 months.
- live in Boroondara and are at high risk of homelessness as they may lose their current housing.
- are using services in Boroondara.

We are also seeking the perspectives of older women who live in Boroondara and older women who participate in social or community groups within Boroondara.

How to participate

The study involves participating in an interview (either in person or over the phone) or a group discussion which will take approximately one hour.

For further information

If you would like further information about the project and how you can participate please contact Katherine Wright, Social Planning Officer on 9278 4940 or visit Council's website.
